

### **Mandatory Education in Anti-Doping for athletes participating in World Championships 2025 with instructions for the learning platform ADEL**

Education is given by e-learning in WADAs e-learning platform ADEL <https://adel.wada-ama.org/pages/58/national-level-athletes-education>

According to IFSS Anti-Doping Education Plan (ADEP) all participants must have passed an anti-doping education for National Level Athletes. International Level Athletes should already have passed the education for International Level Athletes.

All participants in WCh are considered to be National Level Athletes except those who are on the list for ILA <https://sleddogsport.net/library/default.aspx>

Thus, all who are not ILA should perform the education in ADEL for National Level Athletes before the championships in Rørås. However, due to a tight time schedule for many it is allowed to do this at the latest before the end of this season i.e. June 30. ADEL have education modules for this purpose in 18 languages.

#### **Instructions:**

1. Use this link: <https://adel.wada-ama.org/learn>
2. On the website up on the right side **default language is English**, use the pop down menu to change to French or Spanish, click on **Register** and perform Your registration as a user. Note that You must open and read all the information.
